Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

Applicant's representative called to discuss what word(s) could be used in the pending claims to express the relationship between at least a portion of the focus ring and a peripheral portion of the chuck. Applicant had previously amended to recite "at least a portion of said focus ring substantially continuously extends underneath a peripheral portion of said chuck". However, Examiner did not feel that replacement of the word "below" (previously claimed) with "underneath" changed the scope of the claim and the previous rejection was maintained. After discussion, Applicant's representative and the Examiner agreed that use of the phrase "directly underneath" would perhaps more clearly define the relationship that is being claimed.
